“Destinies Lost ... Forgiveness Found”

It is a remarkable expression of the heartbreak of abortion and the joy of forgiveness and healing that can follow.

“... powerfully moving and healing for me, a woman who has had an abortion. It is truly a tribute to our babies and all children stolen by abortion.... [It allowed] me to experience God’s intimate love and desire for me through the grace and beauty of song and dance. A must see for any person touched by abortion,” said Kathy Cosgrove, Rochester area coordinator for Silent No More Campaign

The production was co-written and directed by Sandy Arena and Amanda Ladwig. (Amanda is the woman with the baby in the photo at the left.)
